

Trumpet Call of Emerging Arts, TACF, June 4 to 7, 2008 Information Sheet

Toronto Airport Christian Fellowship is eagerly anticipating this extraordinary June conference, called by God to be part of a global release of creative arts for the kingdom harvest.

Leaders from various creative arts fields are gathering to hear God and release prophetic words, teaching, encouragement, impartation and an understanding of the role of the creative nature of God's anointing in us. It will be a week like no other.

Two major art installations will be featured throughout the conference and a Gallery will be set up within the conference building.

Quebec je t'aime ministry, Montreal, is presenting 'The Experience', a multi media arts representation of the love of Father God for people. It is a very personal and life changing experience. Also on this site is situated a temporary artists' studio where you can view artists at work, ask them questions and appreciate the many pieces displayed by Quebec artisans.

The arts installation on the wall of the main auditorium, titled, 'The Dreaming of Lions Project', is a series of visual art pieces and paintings, which minister to those who have faced extreme adversity. This work is permanently installed in several third world nations and at Tyndale Seminary in Toronto. It is a very effective example of how Jesus is flowing through visual arts to heal wounded hearts and to reach minds, which have been traumatized by evil.

The Gallery, situated under the mezzanine, celebrates several forms of the creative arts. Professional artists' pieces, originals and prints, are displayed on easels. Also included are art photography and artisans' works. During the gallery hours, 1-2 and 6-7PM, songwriters, poets, writers, dancers and mime are presenting original material in the performance section of The Gallery.

An 'Arts Panel' hour is scheduled prior to an evening session to facilitate a question and answer period. Our conference speakers and 'The Experience' creators form the panel.

In addition to morning and evening main sessions there are several workshops offered each afternoon. Use this opportunity to experience new forms of creative arts, worship, learn new techniques, grow deeper in your expression of the creative and receive fresh insight and encouragement from God.

God is sending us many gifted and experienced leaders who are flowing with Holy Spirit and releasing the love and healing power of God through their creative arts ministry. Come and hear their testimonies of how God used 'little old me' to begin to impact the church and the secular world with a love message that cannot always be heard or received through words.
